

Hi Tamer,

I can't thank you enough for enthralling the kids and teachers! They had a wonderful time and the students did learn a few things. I was delighted to have our instrumental teachers there who were very impressed and thrilled you told the students about summer music classes. One teacher told me that after seeing your show a large number of 3rd grade students asked for forms so they can bring home to their parents.

You've got a great team with you and your rapport with the kids is terrific. I will definitely pass your group along to the middle school next year!

Thanks again!
